GIS Shadow Study Exercise 1.1
INDIVIDUAL PRACTICE EXERCISES

Name_____

Date_____

<u>**Description: Model Set Up**</u>
The purpose of this exercise is to set up the Base Case Model for Impact Study

1. **Review existing feeder model**   ☐

2. **Review the Interconnection Project details**   ☐

3. **Update the distribution model with the Interconnection Project** ☐

4. **Review 8760 load data and extract minimum and peak load**   ☐

5. **Review 8760 PV generation data**   ☐

6. **Check the model and ensure the load flow converges and the load at the substation is same as what is intended.**
